

TAPE # 394, June 22, 1979 Side 1 and 2 ALTERNATIVE #3 updated.

CIA OFFICER FIRED FOR CURIOSITY AFTER VIEWING RESTRICTED JFK FILE.

Washington, UPI 6/19/79. San Jose Mercury, Calif.

CIA officer Regis T. Blahut was fired last summer.

Blahut was security officer to guard CIA documents "loaned" to House Select Committee on Assassinations.

The exhibits "belonged" to the CIA.

He took a peek at photographs and X-ray wounds that killed President Kennedy.

He was in a room designated as a "security area," with safe "for our own material!"

QUESTION: DOES THE CIA OWN THIS? WHY?

Regis T. Blahut "there's other things that are involved that are detrimental to other things". He couldn't discuss. "CIA secrecy."

TAKE NOTE!! THIS IS THE SAME CIA THAT IS BUILDING SPACE COLONIES.

They silence the truth.

They are hell bent on control.

They controlled the Warren Commission and the House Select Committee on Assassinations.

They kill world leaders and cover-up investigations.

Do you trust them here? Would you trust them there?

New movie "ALIEN" advertises, "IN SPACE NO ONE CAN HEAR YOU SCREAM".

Review of Alternative 3 10010

Suggestions, "Recommended Corrective Action"

1. Immediate investigation by combined Congressional, private groups.

2. Round up best minds to evaluate reports.

3. Immediate cessation of assassinations, mutilations, interference with our rights, psychological abuse.

4. Open all government files, information, collected with public funds.

5. Reinstate personnel, pilots who have been fired, punished, loss of employment because of secrecy programs. (They can't warn us)

6. Rapid development of alternate sources of energy, fuels, vs pollutants. Education on household chemicals, cosmetics.

7. Train doctors, psychologists, coroners to identify causes of death. (Jonestown..experiments..deaths ignored. Just the start.)

8. Find a way to eliminate war on the planet.
