Polygraph test of Jack Ruby  
Pages 504- 570, Volume XIV  
July 18, 1964

Present in the room:

ARLENE SPECTER, D.A. in Phil, PA. Running for Governor, PA, 1978 elections.  
Inventor of the "bullet 399" mythology.

Republican, surfaced for Nixon's Watergate election, defense.

Bell Herndon, W. James Wood, FBI

They allowed Ruby to write his own questions.  
Went along with whatever Ruby wanted.

Clayton Fowler

New attorney for Ruby. Ignorant of Ruby's dealing behind scenes.

Joe Tonahill

Attorney that was always present, armed, in Ruby's cell when Ruby  
wanted to talk. It took a long court battle to get him out of  
Ruby's immediate presence.

William F. Alexander, assistant district attorney, Dallas, County, Texas.  
Sucessfully prosecuted Ruby trial, asked for "Death Penalty."

Ruby trusted Alexander more than Fowler.

Identical to Patty Hearst going along with Emily, William Harris.  
The victim clings to the person doing them in.

Allan Sweatt, Chief criminal deputy for Dallas County, Texas.

The room was filled with people. Polygraph given usually with  
nobody else present.

E.L. Holman, Chief jailer

Dr. William Robert Beavers

Listed as "an observer"

Why was he there?

Did he have any control over Ruby, or Ruby's future, quick cancer?

ATTEMPT BY JOE TONAHILL TO PREVENT POLYGRAPH TEST, page 507

Talked with "Drs. Tanay, WEST, AND BEAVERS". (Dr. Jolly west, CIA)  
West later identified as being with CIA, like Warren Carroll, others  
"Each of whom feels because JACK RUBY IS OF UNSOUND MIND  
AND MENTALLY ILL, THIS POLYGRAPH IS A ME TAKE AND WOULD PRODUCE  
NOTHING BY WAY OF AN ACCURATE RESULT OF DECEPTION, TRUTH, OR  
CONCLUSIVENESS, IN ANY REGARD AND FEEL IT SHOULD NOT BE MADE".

Listen to this Jack Ruby and see if you think he was of unsound mind,  
or if he controlled a critical question, about his decision on when to kill  
Lee Harvey Oswald.

Dr. Jolly West appears in 1975, Patty Hearst's psychiatrist,  
giving her tests after her arrest. Small world!!!
