

EVIDENCE DESTROYED  
DEATHS OF WITNESSES TO  
JFK ASSASSINATION (cont)

Mae Brussell

I. MAE

# world watchers international

List of names on this tape are included on sheet for Tape #357.  
More details on the deaths later.  
Please help:

If you read a book or article regarding the death of these persons, or deaths in the future that you think relate to the JFK assassination or other political murders, please send it to me. Be sure to give name and date of the source. Years ago I didnt keep such particular records, but find it is very important. Thankyou.

## Notice

Next tape I will give you hazards and accidents, near deaths to myself and events surrounding our family. I was not going to do that, but because of a very close call this week, the record should probably be put on tape for future researchers. In the meantime, if anything should happen to me or my family, I was not drinking, I am not suicidal, I am not taking drugs, and my car is checked regularly by a very reliable group of people. More on that next week.

## EVIDENCE MISSING, JFK ASSASSINATION

Oswald's CIA "201 file, 39 pages".

If 39 pages are missing, what do the other pages have?

Robert Blakey and the House Select Committee concluded that their information on JFK would be incomplete "until the USSR turns over the KGB files". What about the CIA, DIA, NSA, Navy Intelligence files?

Brains of John Kennedy, with multiple bullet fragments in them. Blame put upon deceased Robert Kennedy. Who had them in the Archives?

1. Evidence

2. JFK

Bullets from JFK tested by J.E. Hoover in 1964  
Where were these bullet fragments taken? Who had them?

3. JFK

4. Connally

Bullets tested by FBI from John Connally's wrist in 1964.  
Why aren't they in Archives in 1978?

JFK bullets tested 1964: Four samples, all different weights.  
JFK bullets tested 1978: One 41.6 mill, another 5.4 mill.  
Different than 1964 bullets.

Connally bullets, 1964: two weighed 2.3 mill. Third weighed 1.62 mill  
Connally bullets, 1978: one weighed 16.4 mill, 2nd weighed 1.3 mill.
